

SERIES AP 30, 35 & 36

1/4 INCH DIAPHRAGM VALVE

Springless – manual and pneumatic (NC & NO)

- Replaceable seat
- Stainless steel 316L VAR secondary remelt or Ni-Cr-Mo alloy construction
- Operating pressures from 125 psig (9 bar) to 3,000 psig (207 bar)
- LOTO and indicating switch options
- Flow capacity 0.23 to 0.29 C_v
- Surface finish
 15 Ra max/10 Ra avg
 (10, 7 & 5 Ra max options)
- FA option 1.125 inch C-seal
- Constant bleed option
 5, 8 and 15 slpm of
 N2 @ 80 psig (5.5 bar)
 refer to PN 430
- Multi-port options available (refer to page 4)
- Two step pneumatic valve option: dual operation – metered or full open
- Installation and operating instructions available at www.aptech-online.com in the Tech Briefs section

Manual valves PSIG / BAR 250 / 17 300 / 21 3,00			
AP 3600			•
 Round knob, multi-turn 			
AP 3625			•
Lever valve, 1/4 turn			
 LOTO, PL 225 optional 			
 Lever position indicates valve status 			
AP 3625FA		•	
1.125 inch C-seal			
 LOTO, PL 226 optional 			_

ULTRACLEAN TECHNOLOGY BACKED BY SERVICE AND SUPPORT

- Valves are illustrated top view looking down through the valve. Mounting holes on the valve bottom are shown for reference.
- INLET (Upstream) is defined as a port connected to the region below the valve seat. It is illustrated with an arrow pointing towards the valve body or an "empty" triangle on the schematic. OUTLET (Downstream) is defined as a port connected to the region above the seat and below the diaphragm. It is illustrated with an arrow pointing away from the valve body or a "filled" triangle on the schematic.
- The traditional flow direction is INLET to OUTLET, but AP Tech valves may be employed in either flow direction.
- End connections are specified in numerical order per the diagram's numbered arrows.

CAUTION: Product selection is the sole responsibility of the user, regardless of any recommendations or suggestions made by the factory. The user shall make selections based upon their own analysis and testing with regard to function, material compatibility and product ratings. Proper installation, operation and maintenance are also required to assure safe, trouble free performance.
